

EVOLUTION™

HDMI® 4 x 4 Multi-format Matrix with Video Wall and Seamless Multiview

- High-performance matrix with multiple modes to produce seamless matrix switching, as well as having multiview, and video wall modes
- The switching mode of the matrix allows the speed of switching to be controlled allowing inputs to fade in and fade out
- Multiview mode allows all of the sources to be seen on the displays equally in Quad-view, or in PIP with a main source being larger than the other smaller sources

Powerful Video Wall Feature!

4 Sources to 1 screen!

Great for digital signage!

Part Number: EVMX44SL

HDMI® 4 x 1 Selector Switch with Seamless Switching and Multiview

- High performance 4 x 1 HDMI switcher with Quad-View, Picture-in-Picture (PIP) capabilities and seamless switching
- Supports four HDMI inputs which can be displayed on one screen either equally in Quad-View mode or with a larger main source in PIP mode
- Control through the front panel button control, IR control, and RS232 control
- IR system allowing for control of source(s) at display end
- Supports up to 1080p High Definition resolution
- Up/down scaler functionality
- Coaxial Audio breakout

4 Sources to 1 screen!

Great for digital signage!
